

Lexmark goes beyond

Coming soon: Lexmark's best-ever 12x18-in. color printers and MFPs

The Lexmark CS920 and CX920 series go beyond . . .

Beyond standard page sizes, beyond typical print and scanning speeds, beyond limited media handling, beyond ordinary service intervals. . . Beyond everything you expect in color printing and scanning.

Lexmark services, solutions and supplies have always made us the imaging experts who "go beyond"—a trusted partner who can support your most ambitious goals to print, secure and manage even the most critical information.

We're about to extend that heritage with color printing that goes beyond typical page sizes, monthly duty cycles that support high-demand environments, scan speeds that drive the fastest capture of any Lexmark ever, and printing at up to 65 ppm with a full range of finishing options that guarantee output flexibility.

These two upcoming Lexmark product series will also "go beyond" with input and output capacity that can keep up with punishing workloads, professional-quality color that projects and protects your carefully crafted image, and service intervals that guarantee maximum uptime. Interested?

If you're raising your hand right now—or wildly waving both arms—you're exactly who we had in mind when creating Lexmark's ground-breaking CS920 and CX920 series.

Hang on...they're all coming soon.

Professional color and exceptional versatility

There's so much that makes the CS920 and CX920 series worth waiting for:

- ▶ **Ease of use:** The bright, next-generation 10-inch touch screen with Lexmark's own e-Task interface creates an icon- and text-driven experience that's always intuitive to navigate and can walk you through each step in a process.
- ▶ **Performance:** CS series outputs up to 55 ppm, while CX series can reach 65 ppm and scan up to 160 spm (Lexmark's fastest scanner ever).*
- ▶ **Volume:** Meet demanding output requirements for both standard and 12x18-in. print jobs with maximum monthly duty cycles ranging from 150,000 to 275,000 pages, depending on model.†
- ▶ **Paper capacity:** Maximum 6650-sheet input capacity handles the largest workloads, while output scales to a massive 3500.
- ▶ **Toner capacity:** Replacement cartridges print up to 34,000 mono pages, up to 34,000 color.‡
- ▶ **Long-life service intervals:** Fusers and developer units go up to 720,000 and 600,000 pages, respectively, for maximum uptime.§

*Print and copy speeds measured in accordance with ISO/IEC 24734 and ISO/IEC 24735 respectively (ESAT). For more information see: www.lexmark.com/ISOspeeds.

†Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs.

‡Average continuous black or continuous composite CMY declared cartridge yield up to this number of standard pages in accordance with ISO/IEC 19798.

§Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity

Future products

- ▶ **Professional color:** Both series feature PANTONE® calibration, embedded color sample pages, and Lexmark Color Replacement for easy color matching of spot color and RGB.
- ▶ **Processing and memory:** It starts with a 1.2 GHz processor and lets you max out memory at 4 GB (depending on model) to support exceptional imaging speed.
- ▶ **Advanced finishing:** Boost your in-house production capabilities with optional finishing like multi-position stapling, booklet, saddle stitch and tri-fold.

The Lexmark advantage

Something big is coming to the color 12x18-in. device class. Lexmark's upcoming printers and MFPs in a larger format meet the high-speed, high-capacity, professional-color demands of the most challenging enterprise environments. But they do it all with the combined advantages of Lexmark's sophisticated product thinking and our integrated features and services portfolio.

- ▶ **Flexibility:** Enhance your user experience and productivity with included solution apps, plus the ability to customize it with optional apps, or even create apps of your own.

- ▶ **Manageability:** The CS920 and CX920 series become an integrated part of an existing Lexmark fleet as soon as you plug them in, with complete fleet management, proactive diagnostics, and remote firmware upgradeability.
- ▶ **Security:** Lexmark's comprehensive full-spectrum security is built into every CS920 and CX920 to create not just a safer but a more productive environment for these already high-productivity workhorses.
- ▶ **Mobility:** It starts with simple printer discovery and mobile printing from iOS, Android, or Google Cloud devices—plus scan to mobile and full administration to configure mobile policies, options and defaults.
- ▶ **Accessibility:** Integrated voice guidance, standard headphone jack, tiltable op panel, screen magnification with pinch and zoom—it's all part of Lexmark's best 12x18-in. series ever, optimizing the productivity of those with varying levels of abilities and creating a better user experience for all users.
- ▶ **Integration with Lexmark services:** Every CS920 and CX920 series device is fully compatible with key Lexmark services, from Managed Print Services to Lexmark Print Management.

The Lexmark beyond ordinary 12x18-in. output is coming soon.
